**"ATTITUDE":** The longer we live, the more we realize the impact of attitude on life. Attitude is more important than facts. It is more important than success, than what other people think or say or do. It is more important than appearance, giftedness or skill. It will make or break a company, church, or a home. **The remarkable thing is we have a choice every day regarding the attitude we will embrace for that day.** We cannot change our past, or change the fact that people will act a certain way. We cannot change the inevitable. I am convinced that life is 10% what happens to me, 90% how I react to it. And so it is with you.
